

YOUR GIFT: \$75,000 NATURE TRAIL

Your Legacy

- Name recognition on a sign that features the map of the campus and how the trails extend into the woods.

Your Impact

Our Nature Trail offers the perfect balance of accessibility and outdoor exploration, inviting everyone to experience the beauty of the Pocono Mountains. Designed with wellness in mind, the trail features a paved loop that is fully contained on the campus of our Cancer Respite Center that ensures all visitors, including those with mobility challenges, can enjoy the natural surroundings and benefit from the calming effects of nature.

This paved path provides a smooth, easy-to-navigate surface, making it ideal for families looking to enjoy a peaceful stroll. Whether you're here for some light exercise, mindful walking, or simply to breathe in the fresh mountain air, the trail offers a serene environment that promotes both physical and mental well-being.

At the end of the paved section, the trail seamlessly transitions into the existing network of nature trails that wind through the property of Woodloch Resort. These trails offer the opportunity for more adventurous exploration, where you can immerse yourself in the untouched beauty of the forest, listen to the sounds of wildlife, and enjoy sweeping views of the surrounding landscape.

Whether you're walking at your own pace on the paved section or venturing further into the mountains, our Nature Trail offers a restorative connection to nature that can be enjoyed by all. It's the perfect place to reconnect, reflect, and rejuvenate—whether you're looking for gentle movement or the thrill of outdoor exploration.
