

YOUR GIFT: \$1,500,000 RECREATIONAL POOL

Your Legacy

- Name recognition prominently displayed on the entranceway to the recreational pool building.
- Name recognition in all media and social publications as part of the public launch in 2024, extending reach throughout the Northeast and mid-Atlantic regions.
- Opportunity to attend the ribbon cutting ceremony and capture a family portrait on the campus to acknowledge your family's multi-generational legacy of support.

Your Impact

Introducing the Recreational Pool, a haven where families facing cancer can come together to relax, rejuvenate, and create lasting memories.

Swimming is a beloved recreational activity that fosters connection and unity among family members. Socioeconomic factors, physical limitations, and societal constraints can often prevent families from accessing recreational pools. By removing these barriers, the Patriarch Family Recreational Pool ensures that all families have the opportunity to enjoy the benefits of swimming and aquatic therapy during their respite.

Pool-based exercise offers a gentle yet effective way for families to improve their strength, mobility, and overall well-being. Whether swimming laps or participating in aquatic therapy, the pool provides a supportive environment for families to enhance their physical health and resilience.

The inclusion of a hot tub in our pool building offers a sanctuary for families to unwind, ease tension, reduce bone pain commonly associated with advance stage cancer and find relief from the stresses of daily life. For patients and caregivers experiencing insomnia or difficulty sleeping, the hot tub provides a soothing oasis where they can relax and promote restful sleep.
