

YOUR GIFT: \$1,500,000 RESPITE COMMONS

Your Legacy

- Name recognition is prominently displayed on the third floor as you enter the Respite Commons.
- Name recognition in all media and social publications as part of the public launch in 2024, extending reach throughout the Northeast and mid-Atlantic regions.
- Opportunity to attend the ribbon cutting ceremony and capture a portrait on the campus to acknowledge your legacy of support.

Your Impact

The third floor is designed to foster educational discovery, creative play, and meaningful family interactions, featuring a dedicated Family Game Room, a versatile multipurpose room, and the Community Lounge—each space thoughtfully crafted to enhance connection and relaxation.

The **Community Lounge** offers a diverse array of seven seating options, ensuring comfort for every guest. Whether you're drawn to the warmth of the fire, seeking a quiet corner to read, engaging in intimate conversation, or soaking in the breathtaking views of the Pocono Mountains, this welcoming space invites you to unwind and relax.

Our **Family Game Room** promises a nostalgic escape, filled with classic entertainment like billiards, pinball machines, skee-ball, and a collection of beloved card and board games. More than just a room full of games, it serves as a retreat for families to reconnect and engage in tech-free, distraction-free fun. This space provides a unique opportunity for patients and caregivers to bond with their children, offering a break from the daily pressures of medical challenges and creating lasting memories.

In this vibrant setting, friendships will naturally form among adults, children, and teens, often meeting for the first time. Shared laughter and friendly competition will foster bonds that go beyond illness, offering much-needed companionship and support.

YOUR GIFT: \$1,500,000 RESPITE COMMONS (CONT.)

The **Multipurpose Room** is designed to spark creativity and curiosity through a variety of STEAM (Science, Technology, Engineering, Arts, and Mathematics) activities, blending education with fun. This dynamic space will feature both structured and unstructured programming, encouraging exploration and learning for families.

In keeping with our commitment to educational discovery, the multipurpose room will also host Meet & Greet Icebreaker games on the first evening families arrive for respite. These engaging activities are designed to help break down barriers, foster instant connections, and create a sense of community among families right from the start.

The Respite Commons is designed to offer our families a diverse range of opportunities to relax, play, and connect. As a vibrant community destination, it brings families together through both structured and unstructured activities that foster physical, mental, and social well-being. With an emphasis on fun, recreation, and community building, the Commons provides a welcoming space where individuals and groups can engage, unwind, and strengthen bonds.
