

# YOUR GIFT: \$25,000 BOARD & CARD GAME LENDING LIBRARY

## *Your Legacy*

- Name recognition on a sign place near the Board & Card Game Library in the Family Game Room on the Third Floor of the Respite Center.

## *Your Impact*

We understand that facing a cancer diagnosis can be overwhelming, especially for families trying to maintain a sense of normalcy. That's why we've created a special space where families can take a break from the screen, unplug from technology, and reconnect through the joy of classic board and card games.

Our lending library offers a carefully curated selection of games designed to foster laughter, conversation, and connection. By encouraging families to spend quality time together around a table rather than in front of a screen. We aim to provide a fun and engaging way to reduce the stress of daily life and strengthen relationships.

Whether it's gathering around the kitchen table for a friendly game of Monopoly, teaming up for a round of Go Fish, or diving into a strategy game of chess, our games create moments of shared enjoyment and healthy, face-to-face interaction. These games help families rediscover the power of simple pleasures, spark conversations, and build memories that last far beyond a screen.

The mission of our lending library is simple: to help families create meaningful connections and laughter without the distractions of technology, offering a break from the constant presence of screens and encouraging the kind of togetherness that is essential during challenging times.

We hope that each game borrowed brings families closer, reducing stress and offering a chance to unwind, laugh, and simply enjoy being together—no technology required.
