Dear FPS Supporter,

I am writing this letter in support of the For Pete's Sake Cancer Respite Foundation and its endeavor to construct the nation's first Cancer Respite Center at Woodloch Resort in the mountains of Northeast Pennsylvania. Bradford White has been a proud supporter for many years, sponsoring their annual Gala and Fundraising Walk, and other initiatives that positively impact families battling cancer.

For Pete's Sake Cancer Respite Foundation works tirelessly to address the emotional, psychological, spiritual, mental, financial, and physical health of cancer patients, caregivers, and family members. By offering respite experiences through FPS's services and resources, patients and their loved ones are provided with a space to foster relational depth and unity through community during the trauma of a cancer diagnosis. Patients and their loved ones are referred to FPS by members of the patient's oncology team, ensuring healthcare professionals are involved in the decision-making process. Further, FPS addresses all cancer types and ensures the entire family unit, including the caregiver, has access to respite.

For Pete's Sake Cancer Respite Foundation is making meaningful change to uplift and support so many families across the region through transformational respite experiences. These experiences are both priceless and essential for families battling cancer. We applaud their forward-thinking approach to constructing a new respite center at Woodloch Resort and their ongoing commitment to strengthening families and nurturing their well-being.

I hope you will consider supporting this worthy endeavor. Thank you for your time and consideration.

Sincerely,

A handwritten signature in cursive script that reads "Rebecca Owens".
